## **Double Stack Services commence between Gateway Distriparks' ICD Viramgam and Mundra Port**

**Mumbai/Delhi, 30th June, 2023:** Gateway Distriparks Limited announces the commencement of its **double stack rail transportation services** between its Inland Container Depot (ICD) in **Ahmedabad (Viramgam) to Mundra Port** for its Export-Import (EXIM) trade customers. This key development will significantly enhance operational efficiency, improve asset productivity for the company's **31 trains** and ultimately reduce the overall cost of logistics for the trade, while expediting container evacuation at the port and its Inland Container Depots (ICDs). The first double stack train was flagged off by Indian Railways officials from Ahmedabad Division on **Thursday, 29th June**.

"We are excited to start double stacking rail services between ICD Viramgam and Mundra Port. This will help us with faster evacuation of containers and reduce dwell time at the port for our customers. In particular, as ICD Viramgam is a hub that we use for consolidating containers for double stack operations, we will greatly benefit from this development not only for the ICD Viramgam market but also our Northern India ICDs." said **Rajguru Behgal, President - Rail, Gateway Distriparks Limited**.

ICD Viramgam, spread over 40 acres, is located at Ahmedabad and has a capacity to handle 200,000 TEUs per annum with 2 rail sidings used for consolidating containers for double stack rail services. Gateway Distriparks can leverage its strategically located network of ICDs by consolidating containers for multiple destinations at its hubs in Gurgaon and Ahmedabad, which are connected to the Western Dedicated Freight Corridor.

### **About Gateway Distriparks Limited (GDL)**

Gateway Distriparks Limited is an integrated inter-modal logistics service provider. It has a network of 10 Inland Container Depots and Container Freight Stations strategically located across the country, operating a fleet of 31 trainsets along with 500+ trailers for transportation between its facilities and maritime ports, as well as first & last mile connectivity to provide end to end solutions to the EXIM industry. The company offers general & bonded warehousing, rail & road transportation, container handling services and other value added services.
