

GDL/TN/2026-2027/GHH-IAGR/01

Dated:27-05-2026

Dear Valued Customer,

Greetings from Gateway Distriparks.

We would like to inform you that due to the continued and substantial increase in fuel prices, new labour code-related statutory wage increases, and other associated expenses, our operational and input costs have risen considerably. This is an industry-wide issue, and not specific to us.

For a considerable period, we have absorbed a substantial portion of these increases ourselves; it is no longer sustainable for us to do so, and an adjustment has now become unavoidable in order to preserve the consistency and reliability of services that you expect from us. Accordingly, we are increasing our Terminal Handling Charges and Transportation rates effective 1 June 2026 by the following amounts:

| Charge Head | Container rates | | Increase in Road Transportation charges |
|-----------------------------------|-----------------|---------------|---|
| | 20' Container | 40' Container | |
| Terminal Handling Charges - Laden | ₹400 | ₹800 | 5% |
| Terminal Handling Charges - Empty | ₹200 | ₹400 | |
| ESC (Empty & Loaded) | ₹100 | ₹200 | |

Note:

- ✓ Terminal Handling for all cycle activities as applicable in the tariff(Laden/Empty)
- ✓ The above are incremental charges, applicable over and above the existing tariff.
- ✓ We shall share the revised terminal tariff shortly.
- ✓ The revised charges shall come into effect based on the ICD handover date of exports, ICD arrival date for imports and dispatch plan date for transportation.

✓ **Any major change in fuel prices or other operational cost components in future may demand a further review of transportation charges, which shall be advised separately as applicable.**

We value your understanding & continued support, and we remain committed to providing you with the highest level of service at all times. For any clarifications, please feel free to contact our commercial team.

Yours Faithfully,
Sanjay Vohra- VP Sales
